

Victrola IV  
\$15Victrola XVI  
\$200

Which style  
Victrola  
do you prefer?

The portable models (\$15, \$25, \$40, \$50) are often selected because they are easier to move from room to room, if desired, than the full-length cabinet styles (\$75, \$100, \$150, \$200, \$250, \$300).

No matter which instrument you select, whether the \$15 Victrola or the Victrola XVI at \$200, or any style, they all play every record in the Victor catalog.

Step in any time and hear your favorite music, and let us explain how you can easily secure a Victrola.

### WRONGDOING.

If society is to be further uplifted, if it is to be kept from slipping back, it must hold firmly to the right of saying that wrong is wrong, no matter who commits it or how guilty others may be. If there can be no responsibility and no condemnation till we get a perfect world there can be no way of holding the world up to the level which it has already reached.

### Lamps of the Sea.

Many kinds of jellyfish are phosphorescent at night and present a wonderfully beautiful appearance when slowly moving through the water, and it is this phosphorescence which has given them the poetic title of "the lamps of the sea." They are not less beautiful in the daytime, for most of the species are striped or tinted, some being melon shaped, with rows of fringes dividing the sections. The tentacles are often plumed and while waving about in graceful curves attract or gather in the food of the animal. The "Portuguese man-of-war" is probably the best known as well as most attractive in form of the whole family.

### Bells.

Bells have been employed in association with religious worship since the early days of Egypt. Cymbals and hand bells and small crochets served for the festival of Isis. Aaron and other Jewish high priests wore bells of gold upon their robes and garrisons. The Romans adorned their robes of bathing by their bells and tin. The old compendium regarded as the best bell metal has been tried, but does not make a successful bell. Glass bells are mellow and beautiful in tone, but the material is too fragile. The one metal which is impossible is that which everybody imagines makes the best bell—silver.

### Two Horses.

Is it the fast horse or the slow horse in a team that pulls the greater part of the load? The department of agricultural engineering of the Iowa College of Agriculture says it is the slower horse. It says that supposing one horse of a team is eight inches ahead of the other, the load divides in a ratio of 100 to 106 pounds, in case the center hole in the equalizer is four inches out of line with the holes at the end of the equalizer.

### The Retort Courteous.

He—One thing is sure. I don't intend to be criticised and censured because I have failed to realize your expectations. She—You misunderstand me completely. All that I have done is to express my conviction that you have more than justified my fears.—Richmond Times-Dispatch.

### Paradoxical Content.

"I feel safe from accident on this train."  
"Why so?"  
"Because it is in charge of an engineer who has the reputation of being a wreckless one."—Baltimore American.

### His Own Fault.

"Did the deacon die from infirmities of old age?"  
"So the chauffeur said who ran over him. He couldn't seem to hear, see or jump."—Puck.

### A Greater Need.

Hub—I'm trying to invent a new range finder. Wife—For mercy sake, make it a cook finder. We have a range and can't find a cook to run it.—Boston Transcript.

### HEAR WITHOUT EARS

**Police and Detectives Are using Lip Reading in place of the Dictagraph**

Thousands of deaf people are today throwing away all hearing devices and enjoying all conversation. This method is easily and quickly acquired thru our system. Absolutely the only thing of its kind in the country. Our proposition is entirely original. We guarantee results. It will amaze you. Cost is trifling. See what New International Encyclopedia says on Lip Reading. Hundreds of people with normal hearing are taking up Lip Reading for the many additional benefits gained. You can understand what the actors are saying in the moving pictures. You can understand what people are saying just as far as you can see them. The eye understands beyond the range of hearing. Send no money, but mention this paper and state whether or not you are deaf. All particulars will be sent you absolutely free and with no expense to you. Address School of Lip Language, Kansas City, Missouri.
